- *Nice to know you:* Worldwide business etiquette

THE WORLD WANTS TO HEAR YOUR STORY

The world is changing. Over 50% of business-people now deal with overseas customers, partners or staff. Mastering the difficult art of speaking to worldwide audiences is important. Ruin your one chance to make a first impression and it will cost you.

I help businesses bridge cultures by: building your credibility as an outsider who enjoys hidden advantages over native businesspeople; helping you communicate clearly and understandably with foreigners and, finally, by coaching you in the nuances of international business etiquette.

I serve clients by helping them grow internationally, overcome cultural understanding issues and develop techniques for effective communications. If business takes you to Asia or Europe, I urge you to give me a call. I will work on customizing your message for any audience, anywhere.

GLOBAL PRESENCE COUNTS

From Shanghai to St. Louis, Stuttgart to San Diego. You only have one chance to make a first impression. Your audience demands clarity. You need content that can drive business results. You need ideas and visuals that can close the sale and inspire confidence. Content that will help you make that vital connection with your international audience.

I know what it takes to make your audience listen. To motivate them to act. Give me a call.

Who is Ian Griffin?

Ian is a versatile communications professional with over twenty years experience in the high tech industry. His specialty is communicating complex technical information in an effective and clearly understandable manner for international audiences. He has been a speechwriter for senior executives at Sun Microsystems and Hewlett-Packard.
